WINDHOEK

OBJECTIVE

Software Developer with hands-on experience in full-stack web development, Flutter cross-platform applications, and UI/UX design. Dedicated to innovation, creativity, and developing solutions that enhance everyday life. I built a Flutter clock-in app with photo and location verification and shipped a calculator to the live Namtrans website. I design in Figma, build in Flutter and JavaScript, and analyse data in Python, SQL and Power BI, so I can take a product from wireframe to working release.

SKILLS

PROGRAMMING LANGUAGES

- Java, JavaScript, PHP
- HTML, CSS,Python, Dart

FRAMEWORKS

- Flutter (Proficient)
- React Native (Intermediate)
- Laravel (Intermediate)

DATABASES

- MySQL, Supabase, Firebase

DESIGN TOOLS

- Figma, Visily
- Canva, Photoshop

DevOps

- GitHub / Git

OTHER

- Data Science tools, SQL, Power BI, Google Colab
- Odoo ERP (Certified)
- MS Office Suite
- IT Troubleshooting, Auditing, Software Installation

CERTIFICATES

- NSSCO CERTIFICATE (GRADE 11)
- NSSCAS CERTIFICATE ADVANCED SUBSIDIARY LEVEL
- Odoo Functional Certification

WORK EXPERIENCE

Freelancing Designer

March 2022 to Present

- Engaged in a variety of design projects, for web and mobile products, user flows, wireframes, high-fidelity mockups and interactive prototypes in figma and visily. Showcasing creativity and adaptability in different design contexts.
- Designed brand and marketing graphics, posters and social media content in canva and Photoshop.

Synergy Business Solutions
PEOPLE. SOLUTIONS. GROWTH
SYNERGIZE.BIZ

Worked at Synergy as a Software developer Intern

(June 2025 to March 2026)

- **UI/UX Design:** designed interfaces in figma for an internal file converter tool and the kwiq Stock recording application, from wireframes to developer ready screens at Synergy.
- **Volume Calculator:** developed a calculator tool in JavaScript, HTML and CSS and integrated it into the live Namtrans website
- **Remote clock-in app:** designed and built a mobile app in Flutter and Dart with photo verification, geolocation capture and REST API integration, so staff can clock in remotely with verifiable proof of attendance.
- **Testing and data:** did application testing and logged defects before release, processed and analysed operational data to support decision making and problem solving. Performed data analysis using Excel and Power BI for metro, Shoprite, Woermans' data. Also learned IoT, where I was required to find the issues which Ashlee Distributors faced when it came to inter connectivity.
- **Teamwork:** worked with Synergy team in a live environment, supporting real users, and systems. Helped with helpdesk tasks, for clients who needed help with Odoo, troubleshooting, and documentation.

Flutter Developer
Freelancing
December 2024 to Present

- Build cross-platform mobile apps in flutter and Dart, taking each project from requirements and UI design through to a working, responsive product.
- Use Superbase and Firebase for authentication, cloud databases and backend services, and MySQL for relational data.
- Use Git and GitHub for version control and documented, maintainable code.

EDUCATION

Namibia University of Science & Technology (NUST)

Bachelor of Computer Science, NQA Level 7, Software Engineering
Graduated May 2026

Currently, in final semester of Data Science Honours: NQF LEVEL 8

Ella Du Plessis High School (2021)

Caprivi Senior Secondary School (2017-2020)
